

A – 100- Handbook

This handbook of Policies and Procedures of the East Central Center for Exceptional Children is for the benefit of all those employed, certified and non-certified, so that all employees might better understand their duties and responsibilities in the Unit.

The policies and procedures are general in nature and are to be guiding principles laid down by the governing body upon which detailed decisions are made.

It is the sincere hope of the East Central Center for Exceptional Children Board that all who read this handbook will be assisted in obtaining a clearer understanding of the operation of the East Central Center for Exceptional Children Unit.
