

H - 200 MEDICAID REIMBURSEMENT

East Central member school districts shall be reimbursed the 50% state portion of the Medicaid dollars received from submission of qualified service provider logs.

Reimbursement to school districts shall be dispersed each June, the final month of the unit's fiscal year. This will be a one-time payment to the districts for the sum total of all the proportional payments that were received by the unit during the fiscal year.

Current staff and new hires are required to complete the credentialing process that will qualify them to become a Medicaid enrolled service provider.
